

FIG. 1

A schematic diagram of a medical device, possibly a catheter or probe, with a U-shaped tube. The device is shown within a rectangular frame. A vertical tube (7) enters from the top, forms a U-shape, and exits at the bottom. A horizontal tube (10) is connected to the vertical tube (7) near the top. A funnel-like component (35) is attached to the left side of the frame. A vertical tube (53) is also shown. A horizontal tube (36) is connected to the vertical tube (7) near the top. A vertical tube (9) is shown. A horizontal tube (8) is shown. A vertical tube (52) is shown. A vertical tube (51) is shown.
